

Rainbow Promo tile

SETUP

Put the Rainbow tile **in the bag** with the other tiles.

When you fill the notches of a wheel, if you draw this tile, place it like any other tile around the wheel. Following the usual rules, you **can take this Rainbow tile** during your turn and place it on your Paint board. It **doesn't count** as a Landscape tile, but it will give you  at the end of the game.

SOLVE THE EFFECT

The effect of the Rainbow tile is triggered as soon as it's placed on a Paint board: In turn order and starting with the Artist that took the tile, you can **switch any tile from your Paint Board with any tile around any wheel**.

1. **Remove the chosen tile** from your Paint board and **place it around the wheel**, in the notch left by the new tile you chose.
2. **Place the new tile** in the space on your Paint board where you removed the chosen tile.
3. When all Artists have solved the effect of the Rainbow tile, **resume the game** starting by the Artist on the left of the person who took the tile.

This tile can't be placed in the middle of the large wheel.
If you draw the Rainbow tile during setup, draw another tile and put the Rainbow tile back in the bag.
